

Teresa Kirkeeng-Kincaid Memorial Scholarship

Dear Friends and Family,

As many of you know, Jacob, Ann and I established a scholarship in Teresa's memory at UW-Platteville in 2009. The scholarship is awarded annually to a female student majoring in civil or environmental engineering who is involved in professional and community service organizations. So far the scholarship has been awarded to three very deserving students at UW-Platteville. These students are not only capable scholars, but more importantly they have demonstrated great character in their activities and leadership outside the classroom. Teresa's dedication to selfless service and compassionate leadership are certainly tenets of these young women's character.

Last year we formed **Teresa's Team** to give family and friends an opportunity to not only participate in an event that would remind them of Teresa, but also support the scholarship by being a member of the team. More than \$2,000 was raised last summer through this effort. We are very thankful for your outpouring of support and participation last year to build the scholarship in Teresa's memory!

I am asking you to consider being a member of **Teresa's Team** this year by making a donation to the Teresa Kirkeeng-Kincaid Memorial Scholarship at UW-Platteville and walking or running on July 28, either at the BIX or at your home. Members of **Teresa's Team** will receive a commemorative running bib that recognizes them as a member of the team. Everyone is encouraged to wear these racing bibs when they walk or run on July 28.

To make a donation to the Teresa Kirkeeng-Kincaid Memorial Scholarship at UW-Platteville, please follow this [link](#) to the UW-Platteville website where you can donate online. Please use the **Write-In Fund** option and type in **Teresa Kirkeeng-Kincaid Memorial Scholarship**. You can also print off the [pledge card](#) and send it in if you'd like to make your donation that way. As I mentioned, everyone who makes a donation will receive a Teresa's Team racing bib.

To register for the BIX 7, please follow this link to the official [BIX 7 website](#).

Thank you for considering this opportunity to support the Teresa Kirkeeng-Kincaid Memorial Scholarship at UW-Platteville so we can continue supporting young women students who have demonstrated similar character and community spirit in their pursuit of an engineering degree. Feel free to call or e-mail me if you have questions or want to talk about this more.

Thank you and please consider being there for these students.
